

“WallMonials”

User Manual

The following terms and conditions apply to the use of this software:

While every effort has been made to ensure the accuracy and reliability of the information provided, neither the developer, nor any affiliated or ancillary party, assumes any responsibility for errors, omissions, inaccuracies, or differing interpretations of the material contained herein.

Neither the developer, nor any affiliated or ancillary party, shall be held responsible for the way this software is used, nor for any content created, generated, published, distributed, or otherwise utilized by the user through this software.

The user is solely responsible for ensuring that their use of the software complies with all applicable local, national, and international laws, regulations, guidelines, and industry standards, whether currently in force or that may be enacted in the future. This includes, but is not limited to, laws related to advertising, consumer protection, data protection, intellectual property, and fair use.

This software is provided as a tool only. As required by FTC rules and similar regulations, no guarantees or representations are made that the use of this software will result in financial gain, profits, or any specific outcomes.

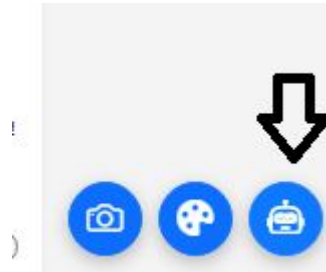

This software and all associated files are provided “as is,” without warranty of any kind, either express or implied, including but not limited to implied warranties of merchantability or fitness for a particular purpose.

This software is not freeware or shareware.

The sale, redistribution, sublicensing, or distribution of the software code, in whole or in part, without prior explicit written consent from the developer, is strictly prohibited.

Using the Software

Using the software is very simple. First, click this button

This will open a window from where you can enter your offer details..

Content Generation Tool

Generate Prompt

Paste Prompt

1. Product/Service Name to Recommend (Optional)

e.g., 'Web Development Service'

2. Your User ID for replies: [USERID]

slm92v

Your Name (Optional)

e.g., Jane Doe

3. Context/Description of Product/Service

Provide context about the product or service you are offering.

4. Conversation Style

Very Formal

Formal

Informal

Very Informal

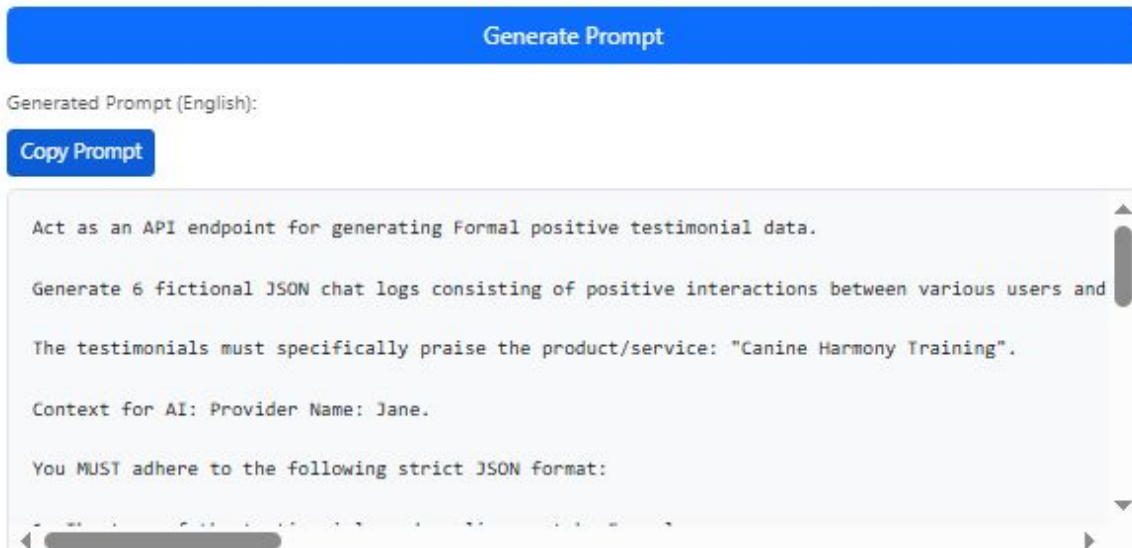

5. Number of Conversations

6 Conversations

Generate Prompt

Just complete all the fields and click “Generate Prompt”.

After this, click “Copy Prompt” to copy the generated prompt to the clipboard.

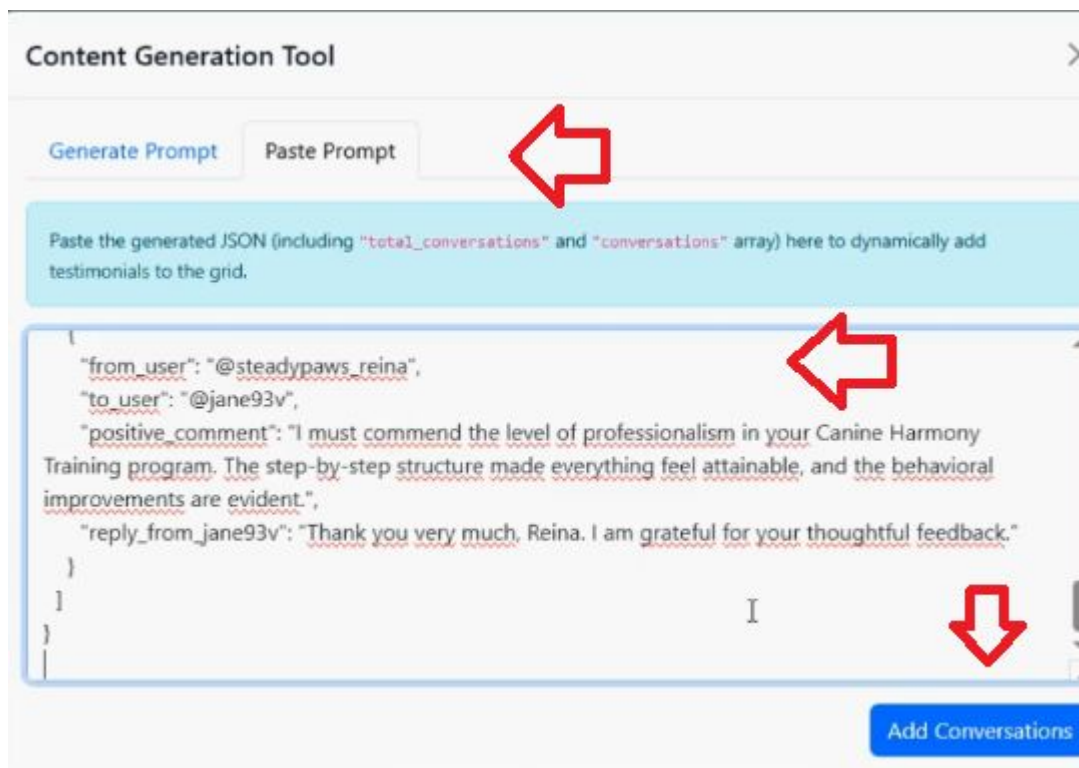

Then paste the prompt that you get inside ChatGPT or any other tool.

Once that you get the results copy them...

And paste them inside the app (“Paste Prompt” window)...

And click “Add Conversations”.

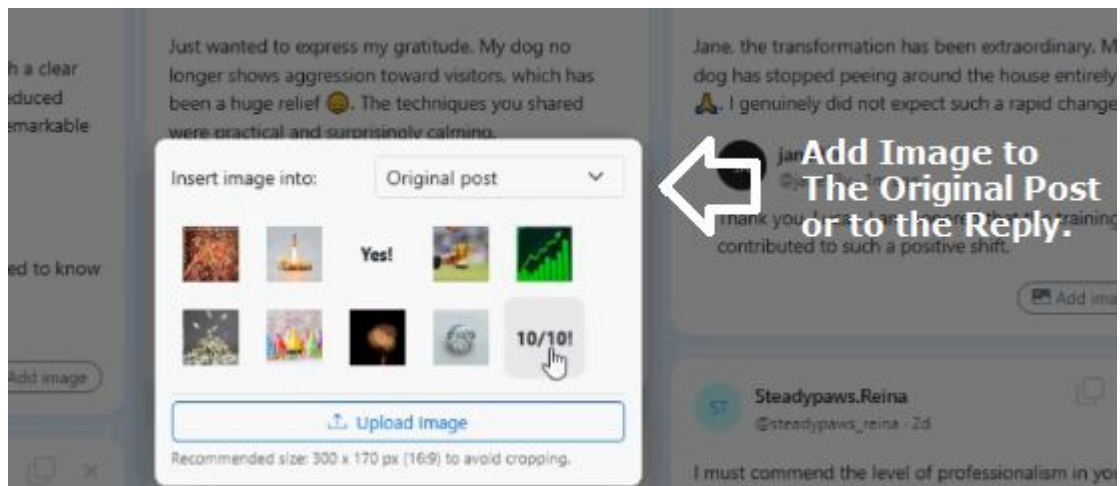

That will give you a quick demo of what you can create (you can start with AI to see how things look like and you can then bring in your own info - text, client photos and more).

If you want to change a text, just click it and will allow you to change it.

If you want to add an image to a testimonial or a reply, click the “Add Image” button...

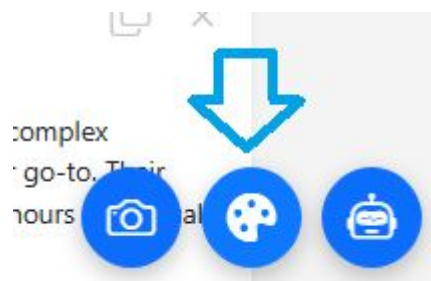

From there you can upload a built-in image or one from your computer...

If you want to duplicate / delete a card, you can do it from here:

If you want to change your theme, you can do it from here:

Once that your wallmonial is ready, you can capture the wallmonial using this button...

This will download a capture of a wallmonial as .png so you can use it anywhere you want (wordpress, blogs, sales funnels, gumroad pages etc).

Comment, if you experience any unexpected shifting or deviation in the capture, then you can use the slider to adjust it (you can test until you're comfortable with a value).

Configure Image Capture

Horizontal Focus Bias

Adjust the slider to focus the screenshot on the left or right side of the grid. This allows you to crop the left side to show more content on the right, especially when using a wide column layout. Use this if you experience any unexpected shifting or deviation in captures.

Focus Left (Crop Right)

Focus Right (Crop Left)

Cancel

Capture Image

That's All!
